

Whole School Literacy: From Intention to Impact
16 January, 2020
Amba Hotel, London

Dear all

As promised, some links arising from our day's conference:

- For insights into literacy impact, email participant htaylor@ibstockplaceschool.co.uk
- For insights into creating reading communities, email participant lstow@ashs.st.benets.org
- For insights into literacy and science, email participant ecronin@fairfield.excalibur.org.uk

For augmented reality resources:

<https://www.educationalappstore.com/app-lists/best-augmented-reality-apps>

<https://apps.apple.com/us/story/id1433052094>

I'd especially recommend looking at Plantale (explore a sunflower using AR) and Froggipedia (dissect a frog) – both from the App Store

Have added the Neil Mercer paper on exploratory talk.

Thanks for coming to the day's course. You were a great crowd.

Geoff Barton
